

# Fractionation Research Inc.

Research – Key to Better Design

June 17, 2010

ALP-05-10

It gives me great pleasure to announce that Equinox Software & Services Pvt. Ltd. of Pune have been selected to represent Fractionation Research, Inc. in India. As FRI's representative, Equinox will recruit new members into the FRI family and will assist FRI in improving the delivery of our services to existing members located in India. For more information, Equinox can be contacted at +91-20-4102 0100 or on the internet at [www.equinoxweb.co.in](http://www.equinoxweb.co.in). You may also wish to directly reach out to Mr. Alok Pandit at [alok.pandit@equinoxweb.co.in](mailto:alok.pandit@equinoxweb.co.in) or at +91-9822042742

Equinox specializes in providing:

1. Model-enabled process engineering consulting services
2. Implementation services for MES, APC, SCM applications
3. Training services for ChE software applications

Equinox has built a core engineering team, equipped with many commercial software tools and has delivered many complex consulting projects successfully, around the globe. It is also a pleasure to announce that the first FRI Indian Special Technical Meeting will be held on October 19, 2010. You will receive additional information as arrangements are made and the agenda is developed, but please plan on joining us for a day of recent research results, computer software training, and a discussion of how FRI can better serve your company's needs.

Sincerely,

A handwritten signature in black ink that reads 'Arthur L. Parker'.

Arthur L. Parker  
FRI President
