

Fractionation Research, Inc. (FRI) is a non-profit research consortium, which includes over 80 of the largest petroleum, chemical, and engineering companies in the world. Roughly two-thirds of our members are based in Europe and Asia. Our pilot facility is located west of the Oklahoma State University main campus. FRI was founded in the 1950's and continues to be recognized as the leading authority on distillation and design practices.

Applicants should provide a cover letter and resume to: [admin@fri.org](mailto:admin@fri.org)

While we sincerely appreciate all applications, only those candidates selected for interview will be contacted.

Please note that the selected candidate will be required to provide references and submit to drug screening.

EOE
